PROJECTS

1. Project: Todo Task Manager Web App | (React Version)

- Integrated **SweetAlert2** and **React Toastify** for polished alerts, confirmations, and notifications.
- Added TaskActionBar with **Select All**, **Clear Completed**, and enhanced **search functionality**.
- Implemented advanced task **sorting** (Created, Priority, Due Date, A-Z) and dynamic **filtering** (All/In-Process/Completed).
- Enabled **task creation**, **editing**, **deletion**, and **completion toggle** with smooth UI updates.
- Developed AddTaskModal, TaskList, and reusable Filter components with **localStorage persistence**.
- Added **dark/light mode** toggle with fully persistent theme settings.

CAREER OBJECTIVE

Self-driven and enthusiastic Front-End Developer with a strong grasp of HTML, CSS, and Tailwind CSS, and a growing understanding of JavaScript and React. Passionate about building clean, responsive, and user-friendly web interfaces. Currently focused on developing real-world projects to strengthen practical skills. Looking for an entry-level or internship opportunity where I can contribute, learn, and grow as a developer in a collaborative team environment.
